is worth hunting through a whole haystack of fiction for some-
times. One of the most evident truths at hand today is the
growth in real estate values hereabouts. You can make no
mistake in buying good property in any part of town. If you
want farm lands, Lacombe district is one of the best in Al-
berta, and the prices are right. Lacombe district has more cul-
tivated land per square mile than any other district but one in
Alberta.

GOPHER POISON

The most satisfactory time to put out gopher poison is when the gophers first make their appearance in the spring. Buy your poison now and be prepared to do your share towards exterminating the pests.

BOLDUAN'S POISON GRAIN

has met with unparalleled success EVERYWHERE because it is supplied in a FINISHED FORM; gophers are attracted to it; they eat it greedily; every kernel in a full dose; no dangerous handling of poisons; no loss of time during the spring rush preparing poisoned baits. The poison cannot be washed off the grain, age does not affect it; no waste on account of bait not being all poisoned; no live stock lost through carelessness in leaving poisoning utensils around.

EVERY PACKAGE GUARANTEED TO GIVE

SATISFACTION

Prices--25c., 50c. and \$1.00

Special quantity prices to Local Improvement Districts.

SHOES FOR EVERY OCCASION

Whatever Your Ideas or Your Preferences may be as to Shoe Styles, you can give them full expression by choosing from Our Stocks.

The "Pike" is a full fitter that carries the snap so essential for this season's style. It presents in its lines a symmetry not often found in extreme last. In patent leather as well as gun metal at

5.00 and 6.00
Buttoned or Laced

The "Limit" is strikingly novel last for young men. The high heel is a factor in its popularity, but the height of the toe is the feature that creates the demand for it. The high heel, the high toe and the high arch make it the height of style; Patent colt.

Price 6.00

The "Hunch" for real gingers, real style, the "Hunch" model is the latest thing we have to offer. A sporty shoe that has class enough to suit the most exacting young men. Don't miss seeing it, in medium tan Russian calf.

Price 6.50

A snappy high toe, "Empress" model. It's a high toe and short fore part gives this dressy shoe a decidedly up to the minute appearance; has a medium outside swing and high arch and heel. In patent colt.

Price 4.00

TREADEASY

"Treadeasy" has built-in inner sole of fine felt, covered with soft kid, prevents jar when walking, rests the tired feet. You will find lots of comfort in this Empress Treadeasy. In fine kid.

Price 4.00

A Perfect Gem, contains everything that the dainty shoe woman demands; has narrow, high toe, short vamp, broad ball with good swing, high arch, medium high heel. In patent leathers

Price 5.00

A comfort last where comfort is first. The way the senior model will fit your foot is its chief recommendation. Looks like a custom model. In Valour calf, leather lined.

Price 6.00

The "Show-Me". You can see at a glance that it is absolutely different from any model you have seen; at the same time it does not impress you as being freakish. In patent, tan and gun metal.

Price 6.00

The "Coasters" model will fit almost any foot; short vamp and raised just enough at the toe to make it comfortable. It is straight enough to carry the high heel. In tan, calf and patent

5.00, 5.50 & 6.00

This "Empress" oxford represents the last word in shoe styles for women. Note the high toe, short vamp, high heel and arch, all combining to give style and comfort. Your feet look a size smaller in this style of shoe. Patent colt

Price 3.50

This Empress button oxford is a strong favorite, made with medium short vamp, the in-step arched with steel support, medium southern heel. In patent vamp and dull kid top.

Price 3.50

In buying this stylish Empress oxford you will get more style and beauty than you have ever had at the price; narrow receding toe, flat forepart, high arch and Cuban heel. Patent colt

Price 3.50

Bleached and unbleached, plain and twill—regular and extra width; 35c to 50c per yard

The Farm Extension

The Experimental Farm here has actually been extended; 320 acres of land adjacent have been purchased and paid for by the government.

This will be good news for the citizens of Lacombe and the farmers of the district. That Lacombe was entitled to an important experimental station has been admitted for years by those in authority, and as election time came round, promises were always forthcoming that the extension would be made. These promises, however only held good until the election was over, but may have gathered in a few votes.

Now, with no election in sight the extension has been made. It is not hard to figure out to whom the credit for the valuable extension is due. While Michael Clark promised and apparently strove for the extension for five or six years, his efforts did not bear fruit. This credit cannot be given to him.

Other politicians interested themselves in the matter, and one and all fell down, so to speak. About six weeks ago, without any flourish of trumpets, A. M. MacDonald was deputed by the Conservative Association to go to Ottawa and interview the Minister on the question. He went to Ottawa and had many interviews with Minister Burrell, and must have impressed him with Lacombe's many claims for a large and up-to-date demonstration farm. The minister informed Mr. MacDonald that he would carefully look into the matter. Minister Burrell kept his word.

On Wednesday last a telegram was received that the department of agriculture had decided to enlarge the farm here, and make it second in importance in Canada. The land has been bought and the extension to the farm is a fact. To A. M. MacDonald is due the credit for the extension. What this means to Lacombe and the splendid district surrounding cannot be figured in dollars and cents. Lacombe will in a year or two be a point of interest to agriculturists of the whole continent.

See the Lacombe Furniture Store for carpets and linoleums. The best assorted stock in Lacombe.

New Business Block

The Western Globe has received the information that the English Syndicate, that owns considerable property on Douglas St., including the site of the Royal Hotel, will erect a large store and office building as soon as the frost is out of the ground.

The building will be of solid brick, and will contain four floors on the ground floor, while the upper stories will be laid out for offices or apartments.

It is also probable that the lot next to the Winnipeg Hotel will be built on early in the spring. The proposed building will be a brick, and will contain a restaurant, billiard hall, and bowling alley in the basement.

The eastern syndicate that purchased the McWilliams farm is having the same surveyed now, and lots will be put on the market in the spring.

LOCAL ITEMS

F. R. Pike, the genial accountant of the Merchant's Bank here, has been promoted to the position of manager of the bank's branch at Walsh, Alberta. Mr. Pike's many friends here, who will be pleased at his advancement, are sorry to see him go.

J. G. White, lodger-keeper at the Lacombe branch of the Royal Bank of Canada, has been transferred to the Lethbridge branch of the same institution.

If you forget everything issued in this paper don't forget Those Talbot's sale on April 2nd in the Exhibition Grounds, Lacombe.

Mrs. E. Simpson and the Misses Simpson will in future receive on the third Thursday of each month, at their residence Barnett Ave., west.

Miss McGregor, Field Secretary of the Women's Foreign Missionary Society of the Presbyterian church, will speak in St. Andrew's church on the evening of Wednesday, 27th, inst., at 8 o'clock. All are cordially invited to attend.

Mrs. Denike will receive on Tuesday next, the 26th, inst.

Have a cup of tea with the ladies at the Methodist church club rooms on Friday afternoon from 3 till 5.

Dr. Shute returned on Monday from Vancouver. Mrs. Shute will not return until May.

Don't forget the special services in the Methodist church to commence on Sunday next.

OVERSEAS CLUB
The monthly meeting of the above was held in Mobley's Hall on Monday evening. Owing to the cold weather and the presence of other attractions in town the attendance was small. After discussion of Overseas affairs in general, in which the members present took a very interested part, the meeting adjourned until the next regular meeting in May.

PURITY FLOUR

GARBUTT BUSINESS COLLEGE

It is good news to the residents of Lacombe and surrounding district to learn of the establishment of a branch of the Garbutt Business College of Calgary and Lethbridge in this city. Parents rightly hesitate sending their children away from home at the time when they should be under supervision. It will no longer be necessary for them to do so for a good business education. Young people will be able to receive just as good a training at home as they can in any of the larger cities. It will also save them the cost of board which is also the largest item in an education of this kind. A night school as well as a day school will be conducted regularly. It is expected that the night school will be largely patronized by young people who are engaged in the day time. It is hoped that quite a number of our young people will take advantage of this opportunity.

Mr. Geo. J. Schmidt, the Garbutt school representative, will arrive in town next Monday noon and will be at the Adelphi hotel until Thursday. All those interested in a good business education should call on him while in this town.

S. W. Paisley will sell all the fine horses and cattle Mr. Talbot on April 2nd.

PIANO CONTEST

Interest in the piano contest is steadily increasing. The candidates from outlying districts are working hard and not in vain as the standing below indicates:
Inas Moore, Brookdale 30,920

Church Union

Just now the Methodist, Presbyterian and Congregational churches of Canada are each wondering if they will lose caste by associating with the others in a Christian work. Of course there is a measure of association between these bodies at the present time. The members of each are regarded as at least nominal Christians by the others. If the leaders of these churches mean what they say, and believe what they profess, they are all promising toward the same goal. Now if they didn't know where the goal was, there would be some reason in setting out on three different routes—three search parties for truth, as it were. But if they know their destination it seems good business sense to take the best route possible and all travel together.

Nevertheless, many good people are coming out in opposition to the proposed union. As far as we can learn, the opposition is mostly on the point of doctrine—that is, what the people are to be asked to believe. It appears from the arguments of these objectors, that there are heresies about the proposed creed, the adoption of which would be a calamity. They should not take it so seriously. No matter what heresies are truth and what falsehoods, the matter is not what they accept or reject, the average men and women who make up the rank and file of the membership of these churches will continue to practice their own religious creed, regardless of the claims of the church. It seems to be a fact overlooked by the leaders of all denominations that men nowadays do not go to the churches for their creeds. Every man has a belief of his own, although perhaps he has never realized the fact and never attempted to express it in words, and that belief controls this line of action and conduct in so far as he is free agent. It occurs when speaking from the point of the ordinary layman, that altogether too much fuss is made about formal beliefs. It doesn't make the slightest difference what a man professes, the test is found in what he does. Let us be misunderstood on this point please notice that we use the word profess—not believe. A man may profess one thing and believe something entirely different. You can't tell from a man's conduct what he professes, but you can tell what he believes. You can't tell whether he professes Christianity, but you can tell whether he practices it.

The supreme test of belief is conduct and Presbyterians, Methodists and Congregationalists conduct themselves pretty much alike. The same fact applies to other denominations as well. If men are kind to their neighbors and their families honest in their business methods and public spirited in their attitude of the state, eager to relieve distress and to remove its cause, you may be sure their creed is far out. And we haven't noticed that any denomination has a monopoly of these virtues.

A movement has been set on foot by the Japanese government which makes our little "church union" affair look very small indeed. It proposes that representatives of Christianity, Buddhism and Shintoism should meet and agree upon some plan of mutual co-operation. Surely this is new light on the subject. We have all understood that the object of one religion was to destroy another, but the Japanese government seems to think differently. They see virtue in all these religions and they want them to co-operate. It is evident that the statesmen of Japan have much too high an opinion of us. If they could

Government Extends Experimental Farm

Additional 330 Acres Purchased.—Lacombe Will Have The Most Important Experimental Farm in the Dominion.—Many New Departments Added.

After years of waiting we are glad to be in a position to announce to the citizens of Lacombe that the Experimental Farm has been extended, and that Lacombe can now boast of what is, if not the largest, the second largest experimental station in the Dominion. In point of importance the Lacombe farm will rank first in the Dominion, if the proposed program is carried out.

Honorable Martin Burrell, Minister of Agriculture, has authorized the purchase of three hundred and thirty acres as an addition to the Experimental Station, Lacombe. This land joins the farm on the west and south and is the best situated for the purpose of the farm extension that could have been secured. The soil is number one in quality, high and can be clearly seen from the main road and the railway.

This splendid extension is made by the Minister with the object of carrying on extensive experiments with the various classes of live stock. Heavy forges, dairy cattle, beef cattle, sheep and swine, will be kept and experiments conducted as to costs of production and methods of feeding. Accommodation will be provided this season for a large dairy herd.

In thus recognizing the importance of the live stock industry in Central Alberta and the need of being done along the lines indicated, the Department of Agriculture is taking a much needed progressive step and the work which may be done in this direction should mean hundreds of thousands of dollars to the province. There are thousands of settlers coming to Alberta every year who want to know exactly what has been done and what they expect to be able to do with various classes of stock. The work now inaugurated by the Minister and made possible through the purchase of this land will supply the necessary data and enable definite answers to these questions to be given. Experimental work of this kind along live stock lines will effect a great saving of time by starting new settlers along right lines just as the work already done with grains and fruits has effected a similar saving of time and money in that direction.

To provide permanent accommodation for the staff it will be necessary to erect a number of cottages on the Experimental Station. These buildings will be put up this season.

The feeding values of different grains and grasses will also be determined. Large barns, for the accommodation of at least one hundred head of live stock will be erected in the near future.

A trained horticulturist will also have a place on this farm, and he will devote his whole time to the improving of fruits, flowers and garden vegetables. In addition to the horticulturist there will be a trained plant breeder, who will take up

POULTRY RAISING AS A DIVERSIFICATION OF DRY-FARMING IN ALBERTA

(Written by A. W. Foley)

From the time our forefathers landed on the Atlantic shores and their little colonies dared to expand either because of the over-increasing population or the depletion of the soil, the tenacity of the movement has been westward, across the prairie ranges, prairies, rivers and forests until the Pacific was reached. In this great westward progress of the past fifty years the pioneers have always kept in advance of the general settlement and have located in the most fertile parts and where there appeared to be possibilities of transportation in the near future. These "pathfinders" have passed by certain portions of the prairie, westward east of the Rocky mountains because they did not consider the rainfall sufficient to produce satisfactory crops.

During the past few years the province of Alberta, comprising 100,000,000 acres of the most fertile land, has been the mecca of land hunters from all parts of the globe. The province offers splendid opportunities for grain growing on the prairies, irrigation and dry farming in the dry belt and mixed farming in the wooded country to the north.

While different parts of the province may be especially adapted to different farm products, poultry raising may be successfully undertaken in all sections of the country. The opportunities for poultry raising, either as a side issue on the farm, or as a commercial undertaking, are very great. The market demands are much in excess of the supply to such an extent that hundreds of thousands of dollars worth are imported annually to meet the demands of the ever-increasing population. The farmers have been so engrossed in the great possibilities of grain growing that poultry keeping has been overlooked, and the province as a whole is a consuming rather than a producing people. This applies not only to poultry but to all lines of food products.

Poultry raising and market gardening make a splendid combination. Not only is the market for poultry products unlimited but the prices are in keeping with the demand. Eggs sell at from 20 to 60 cents per dozen, and dressed poultry, of good quality from 15 cents to 30 cents per pound. While the markets offer every inducement to poultry raising there is also an exceptional demand for high class utility and exhibition stock for breeding purposes and eggs for hatching. The poultryman of the province supply but a small portion of this de-

mand and carloads of purebred poultry are imported from the eastern provinces to help meet these requirements.

Climate conditions are also very favorable. It is not necessary to build expensive houses. Many men making a decided success of winter egg production are using cotton front porches, in many cases built of one thickness of lumber. Outside woodwork, across the front, rather low, but with the still dry air and bright sunlight no unfavorable conditions result.

As a matter of fact, during the months of December, January and February, with the exception of a few days early in the year the thermometer has scarcely reached zero, and a large portion of the time above freezing point. The snowfall is very light and in some parts of the province the snow only a few hours after it has fallen. Rain seldom falls in the spring month until the latter part of May, making the conditions most favorable for the early stages of rearing all kinds of poultry.

On the date this article was written the writer received an unsolicited report from a poultryman at Lacombe, in Central Alberta, stating that he had received 5,327 eggs for 290 hens and pullets from January 1 to February 21. Eggs were selling during this time at from 50 to 60 cents per dozen.

The government of Alberta, recognizing the value of the poultry industry to the province, has established a breeding station which is under the supervision of the poultry branch of the department of agriculture. The popular utility breeds are kept and the birds and eggs supplied at a nominal price. This breeding station is also used as a demonstration and experiment station.

A great deal of educational work is also undertaken in the way of farmer institutes where information is given by practical lecturers who are personally engaged in poultry raising in the province. Bulletins are also published on practical poultry matters.

While the government offers assistance to commercial poultry keepers, the fancy and exhibition side of poultry keeping is also encouraged. In the Agricultural Societies Ordinance provision is made for poultry shows, the department paying the actual money paid out in prizes up to \$300. As many of the larger poultry shows have outgrown the grant further provision is made that where \$500 or more is paid out in prizes the government pays two-thirds of the actual prize money.

I have 13 head of good Clyde 2 and 3-year olds to sell cheap—H. A. Day.

Neuralgie

of the head, face or body, the agonizing pains of which so many people frequently suffer, is generally caused by tired nerves. The true remedy is not a paralyzing drug which only temporarily relieves, but

Asaya-Neural

THE NEW REMEDY FOR NERVOUS EXHAUSTION which contains Lecithin (concentrated from thousands of eggs) the form of phosphorus required to rebuild nerve tissue and which makes possible a permanent cure.

"Asaya-Neural" feeds the nerves, quickens the appetite and digestion and induces sleep; freedom from pain and buoyancy of spirits soon result.

The beneficial effects are evident almost with the first dose.

16 oz. bottle, 60 days treatment, \$5.00

Not only this but these as well

DON'T think that concrete can be used only for building bridges, silos, walls and walks, because if you do, you will probably overlook all the places where you can use it now.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen profitable uses for concrete on your farm at the present moment.

Perhaps you haven't thought of concrete, except for a new barn, or a silo, or some other big improvement for which you aren't quite ready yet. That's why you should read

"What The Farmer Can Do With Concrete"

It will open your eyes to the hundreds of uses that other farmers have found for this material. In plain language, and with the aid of many photographs, it explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material; it's a "handy" material something that you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy concrete. Every one of its 160 pages is devoted to telling you what farmers have done and can do with concrete.

IT'S FREE FOR THE ASKING.
Your name on a postal, or in a letter, will bring the book to you by return mail. Use the coupon. Address

ZIELIE & SKELLY

Lacombe will be Railway Center

Work on C. N. R. Now Under Way --
G. T. P. Surveyors Working in
the District

The C. N. R. has a gang of men engaged, removing the buildings from their right of way through the town, and work of grading will be commenced just as soon as the frost is out of the ground. Trains from the Brazeau line is expected, will be running into Lacombe before June. The contract for the section, the Lacombe branch has been let, and the contractors already have some of their outfit on the ground.

The C. N. R. intend making Lacombe the transfer point for the immense traffic of their Brazeau line, as the junction is situated less than three miles from town. Their offices here,

will handle all the business. It is also the intention of the company to run a spur line into Red Deer this spring.

The Western Globe has written Mr. Strathly for further information about the electric line to the west, and expects next week to have some further information on this matter.

HOW TO SAVE THE WHEAT

If you owned the western wheat field you would put granaries and storage elevators all over so that not a bushel of the golden grain would be lost. You wouldn't have thirty or forty million bushels rotting in the fields because there was no place to store it. Now would you? Neither would I. Yet those wonderfully important people known as the grain growers' association, have allowed this state of affairs to occur. So have the three provincial governments. So has the Dominion Government.

The wheat wanted this season would have built enough elevators at Saskatoon, Regina, Moose Jaw, Indian Head, Battleford, Weyburn and Port Arthur. Not the little toy kind that line the railways and hold a few thousand bushels, but the kind the Canadian Northern Grand Trunk, and Canadian Pacific have at the head of Lake Superior. The C. N. R. elevator at Port Arthur will hold about five million bushels, clean it, sort it, air it and transport it.

That is the kind they should have at the big centres throughout the West. Then when the crop is big the railways can gather it up quickly, rush it into their storage elevators, and then move it later on at their leisure. Under our present system a railway car loaded at Lacombe, say, must travel all the way to Fort William to be unloaded and then go back again to Lacombe for another load. Such a car makes only a few trips in a season. Hence the shortage of rolling stock when there is a bumper crop.

The idea is not mine. Many people in the west have it. Mr. McMillan of the Moose Jaw News, improves on it by saying that these elevators should be sited with big flag-mills where the surplus grain could be offered to feed to their cattle, their poultry, their sheep and their swine. He says that the new grain elevators are buying the butter, eggs and poultry in the cities instead of producing it themselves.

Such a state of affairs as now exists seems unbusinesslike. The Dominion Government proposes to build more terminal elevators at Fort William. It is not terminal elevators that are needed as much as internal storage elevators—Canadian

PREDICTS SUCCESS FOR CHURCH UNION

That up to the present time there has been no indication that the movement for the union of the Presbyterian, Congregational and Methodist churches will fail and that many statements to this effect appearing in the press are misleading and may operate to the detriment of the movement, was the statement made by the Rev. Sanford H. Marshall, pastor of Central Methodist church, Calgary.

Mr. Marshall said that because here and there votes have been cast against it or even that because individual congregations have declared against it, the movement will not obtain sufficient majority of votes to make it effective, is most unreasonable," said Mr. Marshall.

"The fact that the number of churches heard from so far is insignificant is entirely overlooked. There is no reason why the proposal should not be adopted by a large majority."

"Attention has been called to the fact that here and there a strong vote has been cast against it by a Presbyterian congregation, and that this has made the ground for pessimistic predictions of the outcome. These prophecies of woe overlook the gains which more than counterbalance the losses. Ottawa is a case in point, where the Presbyterians were overwhelmingly for the union. Even in this city, where two churches have voted against it, will not their vote be more than offset by the favorable vote of the Presbyterian congregations?"

"No one can say positively what the outcome will be. I see no reason that it will not be endorsed, but I think injury may be done to the movement by predictions of defeat, not warranted by the facts."

"The Congregationalists have endorsed by an 80 per cent. vote. I believe that 70 per cent. of the Methodists will declare in favor of the union, and I expect to see a Presbyterian vote of 60 per cent. in favor. I think the surplus grain could be the outcome will surprise those who predict failure."

"Some say that the vote must be almost unanimous to be effective. The percentage necessary to justify union will be decided by the executive bodies of the churches, and what that will be no one can say. They may say that a 60 per cent. vote is sufficient, and if they do I have little doubt that it will pass. It must not be forgotten that the three Presbyterians bodies united effective needed as much as internal storage elevators—Canadian

A WOMAN'S WAY TO GET RELIEF

TAKE GIN PILLS FOR LAME BACK.

"I received your sample of Gin Pills and after using them, I felt so much better that I got rid of my rheumatism and now I am taking the third box. The pain across my back and kidneys has almost disappeared and I am better than I have been for years. I strongly advise all women who suffer from Pain in the Back and Weak Kidneys, to try Gin Pills."

Gin Pills contain the well known medicinal properties of Gin as well as other curative agents—but do not contain alcohol. Gin Pills are guaranteed by the largest wholesale drug house in the British Empire to give complete satisfaction or money refunded. 50c. box, 6 for \$2.50—sent by mail. Write National Drug and Chemical Co. of Canada, Limited, Dept. 1, Toronto. If the bottles are contaminated take National Lazy Liver Pills, age box. 98

PRICES ARE CLIMBING HIGHER AND HIGHER

Ottawa, March 15.—The department of labor's wholesale prices record up to date shows a still higher level for February than that for January, notwithstanding that the latter month was reported as having seen the highest prices since 1892-4, and possibly since 1873. The index number rose during February from 131.4 to 134.3, these being percentages of the average of prices during the last decade of the last century. The upward movement was largely the result of advances in grains, animals and leather, dairy products and potatoes and meats. Retail prices were also upward, especially in the food products derived from the lines above mentioned.

SHAMPOO THE HAIR WITH OUT WETTING THE HAIR

In every package of Macchia, Nature's Shampoo, which has a record for growing hair—95 cases out of 100—there is a packet of Macchia Dry Shampoo Powder. Price for complete home treatment, \$1.00. Sold and guaranteed by the Macchia Drug Co. (No. 1)

SNAPS AT THE NEW SECOND-HAND STORE

I binder, 3 mowers, 2 hay rakes, 2 mowing machines, 2 demotors, 1 wagon, 1 straw cutter, 1 second-hand range, 2 tents, tamarack posts, 40 bush of timothy seed, bed springs and mattresses, harness, trunks and valises, photographs and records, violin, mandolin and banjos, 6 bicycles, 1 lounge, 6 pumps, extension and kitchen tables, 6 saddles, 5 cream separators, 6 good improved farms at less than raw land, good terms. Highest price paid for fur.

O. BOODE, By. Street.

THE TIME TO GET BUSY

is when a feast from Puffer's Market is served, for if you have a keen appetite you do not want to hide it but go for all you are worth, for the next time you may not have Puffer's meat to eat. The more you make the best of your opportunity. However there is no chance of your starving, for at all times we carry the finest cuts in beef, mutton, lamb, veal, pork and poultry at our famous market. Give us your orders and we will please you.

BEAUTIFYING THE SCHOOLS

In going about the country the one thing which most strikes the traveler is the uniform ugliness of the rural school buildings, and the sad state of the grounds. This, with the two hideous little buildings in the background, and quite unaccounted for, every point of view, makes one wonder what ideals of beauty and modesty can be developed in such surroundings.

The earliest impressions of the child, what it sees in its own home, is of very great importance in after life, and next to the home the impressions the child receives at school and school surroundings are the factors which influence mind and body in the years to come.

If we owe any education to our children at all, it should be a practical one, and to learn how to live, and how to care for the school grounds is to learn how to make beautiful and care for that part of the great earth which falls to the lot of any one so taught, and what it is of the child's home. The grounds about our schoolhouses should be a constant object lesson in order and beauty, and the interior of our schoolhouse furnished with some thought of the welfare and comfort for those children who sit there so many hours in the day.

Go into any well-regulated dairy stable in the province and you will find the stalls graded to the cows, but in the rural schoolhouses tall and short children are expected to accommodate their bodies to the seats and desks, too often at a sacrifice of comfort and health.

The ordinary school room is more like an untidy barn than anything else. In some places you will see the pail of drinking water in the corner, and the tin cup for all. Even if there were no danger of contagion from this, it would be a bad example. No truly clean person cares to drink of water that has been standing in a room where the atmosphere is contaminated with the exhalations from many lungs, and from the dust floating about from blackboard and books.

All schoolhouses should have proper sanitary equipment, and every child taught to be particular in habits of cleanliness in order that those children coming from well-kept homes should not have their sensibilities lowered by carelessness, and more particularly in order that children coming from ill-regulated homes be taught that cleanliness is very near akin to Godliness.

A few hundred dollars added to the appointments in the schoolhouse would mean only a trifle in taxation, but it would mean a value beyond price to the health of, and moral influence of the children. If the schoolhouses were made more pleasant and comfortable, and used by the people of the section for entertainments in the evenings, debates, dialogues, lectures and kindred subjects, it might awaken a pride and care for the appearance of the room.

VALUABLE PRIZES

The grain growers of western Canada will not lack incentive to exhibit their products at the International Dry-Farming Congress to be held in Lethbridge, Alta., October 21 to 26. Among the many new prizes recently donated are two which are worth special attention. The Rumley Engine Co., of LaPorte, Ind., recently offered a Rumley Oil Pull tractor engine, valued at \$2,500, for the best bushel of hard wheat exhibited at the Congress. Following closely upon this generous donation the Stewart Sheep Leader Co., Ltd., of Winnipeg, offered a Stewart Sheep Leader valued at \$500, for the best sheaf of hard wheat shown at the exposition. This leader will be delivered free of charge to the winner, whether he farms in Canada, the United States or elsewhere. Like the Rumley Oil Pull Engine the Stewart Leader is extensively used by the leading farmers of Manitoba, Saskatchewan and Alberta. It picks the sheaf from the stock or from the ground, when lying flat, and by means of carriers lifts the grain into the wagon, thus doing all the work of all the pitchforks in the field, and doing it much quicker than pitchforks.

The officials of the International Dry-Farming Congress are busy with their preparations, and they intend to make the Lethbridge exposition the most pretentious and most successful in the history of the organization.

Chamberlain's Cough Remedy has won its great reputation and extensive sale by its remarkable cures of coughs, colds and croup. It can be depended upon. Try it. Sold by all dealers.

W. E. TEES

MONEY TO LOAN

Private Funds to Loan on Mortgage. Agent for National Trust Co. F. VICKERSON, Agent Lacombe, Alberta

THE CLIVE REPORTER

Published Under the Auspices of the Clive Board of Trade

The News of the Village

Mr. A. C. Johnston, of Edmonton, was on a short business trip to Clive last week and left for home on Saturday.

Mr. J. F. Pix, who has been a resident here for about a year, has purchased a farm at Ermine and intends moving out there this week.

"Scotty" has purchased a quarter section near W. B. Allison and intends to have broken and fenced this year.

We regret to learn that Mr. George Elliott's daughter is reported sick with rheumatism fever. We hope to hear of her rapid recovery.

Mr. J. R. Shaw has sold out his hardware stock to Fulthorp Bros. It is being transferred this week.

The post office at Clive has been transferred this week from the old management under A. C. Johnston to the new under Harry Ross.

Mr. Ross has purchased the building in which the post office and telephone have been housed and will conduct both at the same place of business. We trust that Mr. Ross will be able to make arrangements to move out to Clive.

The post office inspector paid us a visit this week.

The secretary of the Board of Trade has received word from the telephone department that they have included the exchange of Clive in the estimates for this year's expenditure. The petition has been duly sent in and we must now await the pleasure of the department to have the exchange installed.

One of our estimable young men had an experience on Saturday more exhilarating than pleasant. He arrived in town from the south behind a team of spirited horses whose remarkable speed indicated that they were in control and not he. They took a mean advantage of their temporary mastery and unceremoniously parted with their driver near the livery stable. The driver, however, at this point was under the safety limit and resulted in a capsize. No harm was suffered by either driver or horses. They were soon brought to a standstill by mechanical assistance of the reins in the wheels. "All's well that ends well."

If no one is willing to undertake to act as agent for a livery in the village, the next best thing is to get a citizen of the celestial empire to take up his residence here and keep the residents sufficiently starved up. It would be very convenient if some Chinaman would hang out his shingle here.

EDITORIAL

A LOCAL JUSTICE WANTED

Now that the burden of legislative duties are laid aside for another year we would like to call the attention of the authorities whose special function it is to recommend the appointment of public officials to the fact that we need a justice of the peace resident in or near Clive. We are a peaceably inclined community generally, and the demands for a justice are not frequent. Yet it is our right to have one conveniently situated so that when occasion demands he should be near at hand. Moreover there are other occasions besides public when it is a convenience to have a justice in our village. Let the appointment be made.

A. F. McGill's sale will commence at 10 o'clock sharp. For those who are not in the habit of dining, remember the date Saturday, March 30th.

SMITH LUMBER CO.

CLIVE - ALBERTA

We do not claim to be the only lumber man in this district, nor the only dealer handling good stock; neither are we free from imperfections, but our every desire and aim is to satisfy the demands of the public.

Everything in Lumber

"It Pays to Trade in Clive"

FAIRVIEW

Miss Gerlie Ruckle, of Grand Forks, B. C., is visiting at her aunt's Mrs. G. H. Tidale.

Quite a number from here attended the social last Friday at Lacombe. A good program was given together with two very amusing dialogues. The auctioneering of the time was conducted by Mr. Edwards.

One of the boys figured considerably, one especially who bought four tickets costing him a little over \$7.00.

Fred Moore, who had the misfortune to get his shoulder dislocated the other week, is now glad to report, progressing very favorably.

Don't forget "Captain Dick" in the school house next Saturday night. Come early and be sure of seeing it all this time. A collection will be made and will be given to the Bull Town baseball nine towards their necessary expenses for this season.

Watch for the day of sports that will be held in this vicinity in the near future.

The Socialist lecture given last Sunday afternoon by Mr. Budden was quite well attended.

Mr. C. Southwell will be active in a few days from Lions Nebraska with a car load of settler's effects.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not one case of rheumatism in town requires any internal treatment whatever. This liniment is for sale by all dealers.

BLACKFALDS

R. Trout, who attended the convention of the Moral Reform society in Edmonton, reports it a bright and interesting gathering.

Mrs. Hyslop will occupy the pulpit at the Presbyterian church on Sunday evening in the interests of the W. C. T. U.

Mr. and Mrs. Gracely, who have spent the winter in the east, are expected home very soon. Their friends hope they will continue to live here.

Mr. Clout has taken charge of the meat market here.

Among the usual spring movements are S. Ranafield and C. Rees, but we are glad to know they are only moving to other parts of the town.

It is reported that P. Murphy of Red Deer, contemplating opening a grocery and shoe store here, carrying a large stock.

It is also rumored that the Red Deer boarding house is to reopen soon.

S. Caprine and sister have the sympathy of their friends in an attack of measles which we hope will miss the rest of us.

Mr. LaBlanc spent a few days in Edmonton recently.

P. Wheeler, Sylvan Lake, spent part of the week with his parents here.

Misses Margaret Hill and Ida Ryan of Red Deer High School were, as usual, welcome week-end visitors.

Rev. H. Munton preached at both services in Lacombe on Sunday last in the Methodist church, he and Mr. Locke exchanged pulpits for the day.

Mr. Raynow, the former principal of the school here, has moved in to town again, and is now teaching in the Blindman school at an early date.

SPRUEVILLE

Despite the disagreeable weather on Monday Wm. Meinzing's sale was a success.

Although there was a small crowd at the bidding, the prices were good and were realized.

Wood buzzing and grinding

MEADOWS & SMITH

Farm Propositions

No better to be had than here, and you are dealing with responsible business men.

are the order of the day in this vicinity.

Mr. Alex Swanson left on Monday to complete his home-study duties near Consort.

Mr. George Stouffer, also P. A. Richardson, of the Consort district were Spruceville visitors during the past week.

That Socialism is gaining in favor in this part of Alberta was evidenced by the number who attended the Socialist lecture Sunday afternoon in Lacombe.

Rev. Newman of Rimby took charge on Sunday at Spruceville church. In the absence of Mr. Haddon.

The present year will make a new epoch in the history of Spruceville. According to statements from headquarters in Winnipeg, the electric railway from Lacombe west is assured and Spruceville will be on the railway map by next autumn. That it will be a great boon to the district as well as a convenience goes without saying. Already real estate prices are beginning to soar.

The first monthly meeting of the Progressive branch of the U. F. A. was held last Friday evening in the Spruceville school house. Judging by the attendance and by the interest taken in the proceedings by the members it is evident that they intend making the "Progressive Branch" one of the most progressive in the province.

It was decided by the lodge to hold a social evening in the near future and if present plans mature Mr. E. J. Fream, secretary of the United Farmers of Alberta will be present and give an address.

The shadow social given in the school room on the 8th, was a success in every way. After a somewhat lengthy program the ladies shadows were sold to the highest bidder and realized an average price of \$2.60.

Spruceville is progressive in every way and especially the ladies are shown by the fact that they do not intend to let their year pass along much further without taking advantage of their privileges. In the near future we intend giving a social to the ladies' committee to assist anything ever given in the Lacombe district. That it will be a success is certain, especially since they plan to sell shadows of the gentlemen by auction. A program is being prepared. The date will be announced shortly.

Mr. Editor, I intended writing a little more but during the last week my courage received a jolt, took a tumble and gradually oozed out through my finger tips. Besides my first lesson at school from my first teacher was obedience.

W. O. T. U. MEDAL CONTEST

The fifth medal contest of the Women's Christian Temperance Union will be held in the Methodist church on Friday, March 22, at 7 o'clock.

The program is as follows: Opening services by chairman, Rev. Locke.

Marching song by fourteen little girls.

Competition in solo singing, children's voices.

Reading, children.

Tris, adult voices.

Competition in elocution by school children.

Tris, adult voices.

Dialogue, five boys.

Presentation of medal for elocution by Rev. M. White.

Dialogue, young ladies.

Solo, young ladies.

Marching song, fourteen little girls.

National anthem.

Judges for singing competition: Mr. Woody, Mrs. McDonald, Mrs. Fowler.

Judges for elocution: Rev. A. J. Patstone, Mrs. Fogle, Mrs. Mutton.

Don't forget the special services to be held next Sunday in the Methodist church. The Rev. Campbell, who has been holding services with such glorious results at Castor, will be assisted by his son, who takes charge of the singing. Come not only to receive, but to impart blessing. There will be prayer meetings on Wednesday and Thursday nights of this week. If you are interested in what we hope may prove a harvest of souls, come to these prayer services and unite with us in prayer for the blessing of God.

The members of the Quarterly Official Board of the Methodist church are kindly requested to meet on Wednesday night at 8:30.

THE PIONEER STORE

CLIVE, ALBERTA

INDUSTRIAL ACADEMY NOTES

Cal Smith has returned from spending a few days with the folks near Clive.

Camille Armeau also spent the week-end at his home near Sylvan Lake.

Elder C. A. Burman made a short trip to Calgary the last of last week.

Henry Kindopp returned yesterday from a visit to his home near Beiseker. He brought with him one car of Elder Humann's goods. Elder Humann will arrive tomorrow with another car.

Peter Tkochenko, a Russian colporteur, who has been working among the people of his nationality east of Edmonton, spent Sunday and Monday at the Academy.

Mr. J. H. Schmidt, of Czar, Alta., brother-in-law to Jalmer Johnson, spent last week visiting with his sister near the Academy. He took a valuable team back to Czar with him.

Mr. Hallberg, wife and little son, of Ross Creek, Alta., while on their way from Vancouver, where they have been visiting Mrs. Hallberg's parents, stopped over at Lacombe last week to visit their relatives living near the Academy. They are related to the Clemenson, Pond and VanBuskirk families.

K. K. Fish and family were surprised last week by the arrival of Mrs. Fish's brother, Verne Carpenter, and family, from Nebraska, who were on their way toregon. During their stay they will be at the Academy.

Carpenter, of Vermillion Lakes, Alta., arrived and accompanied them to the States.

Professor Beardsley conducted the regular meeting last evening, bringing out the fact that only workers are advanced in this world, no matter in what line of work they may be engaged, so long as it is honest and legitimate. He cited the following instances from the Bible showing that God calls men from the humblest walks of life to assist Him in his work:

Moses was busy with his flock at Horeb.

Saul was busy threshing wheat by the wine press.

Saul was busy searching for lost stock.

David was herding his fathers sheep.

Yehoi was plowing with 12 yoke of oxen.

Nehemiah was busy bearing the king's cup.

Amos was busy following the flock.

Peter and Andrew were busy fishing.

James and John were busy mending their nets.

Matthew was busy collecting customs.

Saul was busy persecuting the followers of Christ.

Carey was busy mending and making shoes.

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant to take. For sale by all dealers.

Further particulars can be had from the Vendor's solicitor, A. M. Macdonald, Lacombe, Alberta.

The property is offered for sale subject to a reserve bid with has been fixed by a Judge of the Supreme Court of Alberta. The purchaser is required to pay a deposit of ten per cent of the purchase price at the time of sale, and the remainder within sixty days thereafter without interest, into Court to the credit of this action.

In all other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta.

Further particulars can be had from the Vendor's solicitor, A. M. Macdonald, Lacombe, Alberta.

Dated the 15th day of March, A. D. 1912.

"P. S. HIMPSON," Deputy Clerk of the Supreme Court (M20-3c)

Seven oxen and harness and two breaking plows for sale. Also one saddle pony, suitable for children. Oxen all well broken and ready to go to work. Apply to Clarence Stacey, 8 miles south west of Bentley. Bentley (M20-3c)

EDWARD J. GIBBS, Manager

The debate last Monday evening at the McPherson Hall between Rainey Creek Literary Society and the Bentley Social Club was won by the visitors by several points. The debate was interesting from the start, but the environment was too strong from the hereditary side of the case.

J. Veckind's wood saw passed through here last week, stopping to do some cutting at the Alexandra Hotel on Friday.

We are having the first bad storm since January but it still lacks some of being a blizzard.

Arthur Ebergin and Gustav Fischer, of Wisconsin, arrived on Friday and have already secured positions for the summer. Emmett Hankins and wife have left for their home where they will get things in shape to leave for Government road work again this summer.

The Socialist meeting on Saturday night was very well attended, and Mr. Budden gave a very good address on the Socialistic views of the day.

D. B. Palmer moves into Bentley today, where he will be prepared to give his whole attention to the real estate business.

Charles Hankins has his new residence nearly completed and will have one of the best places in the village.

Mr. Robin White returned home on Sunday after several weeks in the hospital at Waukegan following his fall from the passenger train on his way to Edmonton. He is able to walk about, although he is very lame yet.

J. H. Suggott gave a very interesting exhibition with the Indian clubs on Saturday night before the opening of the Socialist meeting. Jack is a past master at the art, and is equal to the best.

We expect that a drug store will be opened in Bentley soon, as parties were looking over the ground with these intentions in view last week.

That the electric railway will be built out as far as Bentley this year seems to be a decided fact and some move to start work on same is looked for soon.

Anglican Church Notes

Sermon March 24th as follows:

Rimby 11 a.m.

Lockhart 3 p.m.--special baptismal service.

Bentley 7:30 p.m.

Confirmation classes will be held every Tuesday at 8 p.m. at Rev. J. W. Thompson's residence, Bentley, and on Saturdays at 4 p.m. in the Rimby church. All who desire to know definitely English church doctrine are welcome to come to these classes of instruction.

Special services will be held in the Rimby and Bentley churches on March 28th and 29th, respectively at 8 p.m.

These services will be illustrated by lantern slides and conducted by Rev. A. J. Peterson of Lacombe, assisted by Rev. J. W. Thompson.

All are specially invited to these services.

A simple and good rule to remember and to follow is to buy nothing in the baking powder line unless all the ingredients are plainly printed in English on the label. This information is stated on every package of Magic Baking Powder. All Grocers sell it.

RIMBEY

Rev. Haddon, of Bentley, exchanged pulpita with Rev. Newham last Sunday.

Mrs. Bowker entertained the Children's Auxiliary last Saturday.

Mr. Sam Christofferson is holding a sale at his place on March 26th. He has some very good horses for sale and as he is leaving for Denmark everything will be sold without reserve.

Dr. Sharpe, of Lacombe, was called to Mr. Wilner's, of Wittenburg, last Saturday, a distance of fifty miles from Lacombe. This emphasizes the fact that there is a good opening for a doctor at Rimby.

Jos. Marshall, Rimby's busy auctioneer, has received instructions from Wm. Sayles to dispose of his stock and farm implements at public auction. The sale will be held on the N. E. of 10-43-3, four miles north and four miles west of Rimby, on March 28th.

Wm. Williams and I. E. Trip-let went to the Mountain House for the fore part of the week.

Mrs. Shelby Reed and children returned from their visit to Iowa last week. Mrs. Reed has not come to Rimby yet, but has been detained in Lacombe where Mr. Reed has been for

the last month laid up with

Our L. F. D. 21 A. 5 will furnish gopher poison for the farmers who wish to make war on these little pests. They are getting to be very plentiful in some localities and all should make an effort to exterminate them. Remember the old adage "A stitch in time saves nine".

Those who wish to use it should apply to the councilors.

Miss Grace Everhart is suffering from a serious accident which lacerated her last Tuesday while on her way to Rimby. She was riding horseback and in attempting to adjust the cinch on the saddle while riding, was pitched to the ground receiving severe injuries about the head and spine, which rendered her unconscious. She mounted the horse again and went to the hotel at Rimby where she was taken care of and her relations communicated with, and Dr. Sharp was sent for who pronounced the case not necessarily serious. She remained at the hotel until Friday when she was able to be taken home on a bed and is at present slowly recovering.

WITTENBURG

G. N. Taylor and Frank Lee made a flying trip to Blackfalds, via Lacombe, Tuesday, returning Wednesday evening. They report a large amount of grain still in the stock south of Bentley.

Orson Archer is building quite an addition to his house this week. We are unable to learn who is the boss carpenter on the job.

E. T. Bradshaw is hauling lumber for a new granary, and is contemplating a new barn in the near future. That's right, E. T., improvement is what we all need!

Cummings new sawmills have finished saving for this season. They report a large amount of lumber still left in the yards. Had the slashing remained clean-up.

We are pleased to learn that Messrs. Frank and Will Lee are going to put in a large stock of goods of all kinds at Wittenburg. They have made arrangements for the Jan. Evans building, and as they are expert butchers, will be able to supply the vicinity with fresh meats, and will also deal in cattle and horses, as Frank is always open for a trade. They will hold a public sale at their farm west of Lockhart on Mon-

day, March 25, and move to Wittenburg April 1st. These gentlemen have had experience in the Old Country, are noted for square dealing and are pleasant chaps to meet. We wish them every success, and at the same time congratulate ourselves.

The Benjamin school opened Monday with M. March engaged as teacher for a nine months term. This gentleman comes from Manitoba, after having taught successfully at Lethbridge, Alta.

G. N. Taylor, the Wittenburg auctioneer, conducted another successful sale on Monday last for Thos. Monks. A large crowd was in attendance, and everything sold well.

Taylor will be in charge of the Lee sale on Monday, March 25, where he will sell a good line of horses and cattle.

Oh yes, now that we are all theaded around here what are we going to do with our grain? Some one says sell it of course. That's the idea. Now that the Medicine is full of good seed sell it for about 24 cents and turn around in about a year and buy at 80 cents in order to get seed for the next crop. Listen! Hold this seed, for with present indications, we will get a big crop of green food next fall.

IOWALTA

The tie social given in the school house last Tuesday night was a great success. Every necktie sold at a good price--the lowest going at \$1.25. The program, composed of recitations, dialogues, songs and violin music, was thoroughly enjoyed by the large audience. Depend on our young people to turn out the real thing every time.

A large crowd attended the dance at the home of Mrs. Whitescotton last week.

The congregation of Iowalta Methodist church sent Mr. Taylor as delegate to the Alberta Temperance and Moral Reform Convention at Edmonton last Wednesday.

A dance was held at the home of Mr. L. Frizzell on the 15th, in honor of Mr. Frizzell's birthday. Last Wednesday the young people gathered at the home of Mr. Marguerite for a social dance, and although the crowd was not large all seemed to have a good time.

Thos. Talbot's sale on April 2nd, in the Lacombe Agricultural grounds. Read the big sale bill in this issue.

NOTICE OF CHANGE OF PARTNERSHIP

Notice is hereby given to the effect that the firm of Putland and Thorp, of which the former members were Chas. A. Putland, Frank W. Thorp and Herbert Thorp, carrying on business at Bentley and Rimby, Alta., was on the first day of March, 1912 dissolved, and that a new partnership, consisting of Chas. A. Putland, Frank W. Thorp and William Brooks, was, on the 1st day of March, 1912, formed under the above said designation of Putland & Thorp, and that the assets and liabilities of the former partnership are taken over and assumed by the present partnership.

Dated at Lacombe, Alta., this 8th day of March, 1912.
